

MST

Magnetic Stirrer

VELP
SCIENTIFICA

Analytical Instruments
Raised to Excellence

**Be Assured.
Choose MST.**

- ▶ Small, simple and efficient magnetic stirrer
- ▶ Accepts up to 5 liter flasks
- ▶ White surface for visualization of particles and color changes
- ▶ Speed regulation up to 1100 rpm
- ▶ Remains cold even after several days of continuous use
- ▶ Ideal for microtitration, BOD, microbiology and biochemistry
- ▶ Excellent speed control, even at low speeds

www.velp.com

With its **white surface**, MST magnetic stirrer facilitates color change detection point, extending its usage to **many applications** including microbiology and biochemistry, microtitration stirrings and slow/long stirring.

It is particularly appreciated due to its no overheating capability, meaning that this magnetic stirrer remains **cold even after several working days**, being strongly recommended for BOD analysis (where fixed temperature is required).

MST magnetic stirrer is extremely light and versatile: **every lab must have it!**

GENERAL FEATURES

Construction material:	technopolymer
Power:	0.6 W
Weight:	0.4 Kg (0.9 lb)
Dimensions (WxHxD):	130x50x150 mm (5.1x2x5.9 in)

PERFORMANCES

Electronic speed regulation:	up to 1100 rpm
Stirring volume (H ₂ O):	up to 5 liters
Speed control:	excellent speed control even at low revolutions
Electronic speed regulation:	up to 1100 rpm
Stirring volume (H ₂ O):	up to 5 liters
Speed control:	excellent speed control even at low revolutions
